

TEENING UP FUTURES

First annual golf benefit for College Possible Oregon
Monday, September 12, 2022, 8 a.m. start time, Stone Creek Golf Club

College Possible is a nonprofit that works to empower students from underserved backgrounds to become college graduates and show them that college is possible for everyone. We strive to make college admission and success possible for students from low-income backgrounds through intensive coaching and support. We believe the future of our children should be determined solely by their talent, motivation and effort.

Together, we can make it happen.
